Objective

Driven and dedicated MERN stack developer with over 2.8 years of practical experience in designing and developing scalable web applications. Skilled in using MERN (MongoDB, Express.js, React, Next, Node.js) stack to deliver robust and efficient solutions.

Experience :

Dec 2023 – Present

Frontend Developer | **Freelance**

As a Frontend Developer specializing in freelance projects since December 2023, I excel in crafting responsive user interfaces and seamless API integrations. Leveraging technologies such as Tailwind CSS, Next.js, React.js, JavaScript, HTML, and CSS

Apr 2023 – Nov 2023

Mern-Stack Developer | **Altezzasys Systems**

1. Application Development:

Design, develop, and deploy full-stack web applications using the MERN stack (MongoDB, Express.js, React, Node.js).

Collaborate with cross-functional teams, including designers and backend developers, to gather requirements and translate them into technical solutions.

2. Front-End Development:

Build responsive user interfaces using modern front-end technologies like React. Optimize

front-end performance for fast loading and smooth user experience.

3. Back-End Development:

Develop server-side logic using Node.js and Express.js for efficient handling of API.

Implement and manage APIs, including authentication, authorization, and data validation.

Design and implement server-side architecture to ensure scalability and maintainability.

Version Control and Collaboration:

Use version control systems like Git to manage codebase changes and collaborate effectively.

8. Continuous Learning and Improvement:

Continuously learn and improve skills, staying adaptable to new technologies.

Project :

1.Title : Fabwelt NFT Marketplace

Description : Marketplace For The WELT Gaming Ecosystem.

Technologies Used : The technologies and tools in the project. includes MongoDB, Express.js, React.js, Next.js and Node.js used.

Link : https://market.fabwelt.com/

Role and Responsibility : Handling API requests and data management MongoDB databases, including schema design, indexing, and querying.

\# Aug 2021 – Mar 2023

Mern-Stack Developer| **Conaxweb Solutions**

Develop, and deploy full-stack web applications using (MongoDB, Express.js, React, Node.js).

\# Jan 2019 - Feb 2020

Sales Manager | **Royal Finserv**

 Delivered sales presentations focused on offerings and unique advantages over competitors.

\# Jan 2018 - Dec 2018

Android Developer | **Softyoug Solutions Vapi Gujrat**

Developed mobile applications tailored to client requirements utilizing native technologies.

Education :

Bachelor of Computer Science

 Jan 2013 - Dec 2017

B.Tech (Computer Science | A. P. J. Abdul Kalam Technical University, Lucknow, U.P)
